 **GBM #13** 

Putting it all together/
What we learned

December 4th, 2025
Upcoming: Christmas!!!!

Welcome!

Meeting Schedule

ALL DONE

Date	GBM Title	GBM	Speaker
28 Aug	(No Meeting)		
4 Sep	Hello! Introduction and Icebreakers		ne
11 Sep	Intro to Unity		Ares
18 Sep	Art on a Budget (or How to Use Free Assets)		
25 Sep	Intro to Git and How to Work Together		n & Hailie
2 Oct	PlayStation Recruiter Talk		Sewell
9 Oct	Materialising Game Design: Planning and Prototyping		
16 Oct	1-Hour Design Jam		
23 Oct	Mechanics vs. Narrative: an Exploration		
16 Oct	Intro to Blender Modelling		Ares
6 Nov	Linear Narratives and the Almighty Flowchart		
13 Nov	3D Animation		Ares
20 Nov	Puzzle Design		Marsh
27 Nov	Thanksgiving		Squanto
4 Dec	What Have We Learned? A Discussion	Project milestone	Everyone
11 Dec	Finals Week!		No one?

#👁👁showoff **recap**

Lesson Plan

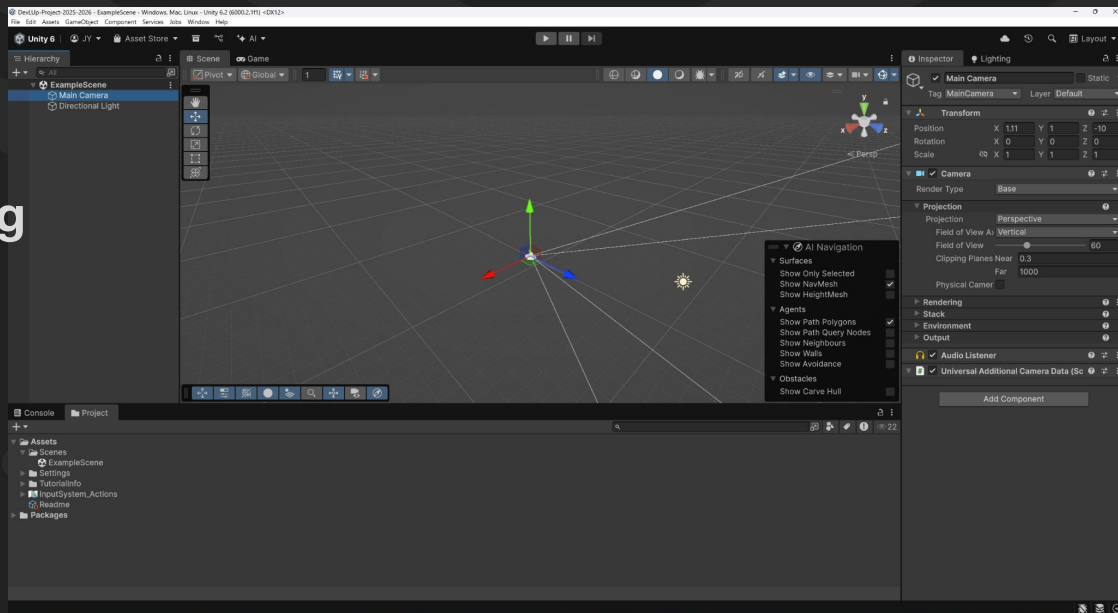

- Review of what we learned
 - Unity, Design, Blender, ect.
- How you can continue learning
- A Short Recap of Dawn of Dion
- Playing some of the old club games!

What did we even
learn this
semester????

What is Unity?

Popular Game Engine
used in personal and
professional
environments

Supports the C# scripting
language
2D and 3D

Git and Github

- Git is used for collaboration/version control
- Allows multiple people to work on one project simultaneously
- Github hosts git repos and lets us remote into them
- Any more questions ask Jackson Anderson

Game Design

Mechanical Focus

How the player *interacts with* the game

Controls, gameplay, ease and frustration, external logic

Narrative Focus

How the player *interprets* the game (sorta)

Visuals, audio, worldbuilding, characters, internal logic

These are two sides of the same coin—a good game uses both!

Blender For 3D Modeling

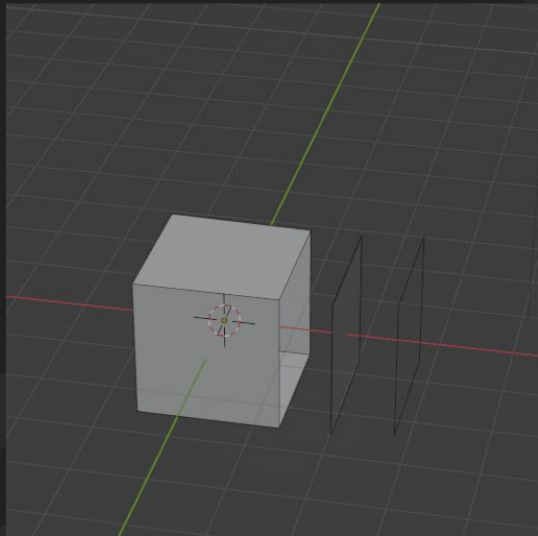

Fig. 4: *extrusion*

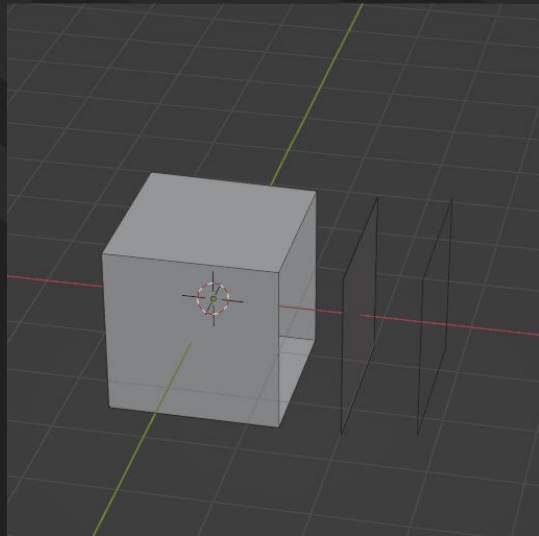

Fig. 5: *loop cut*

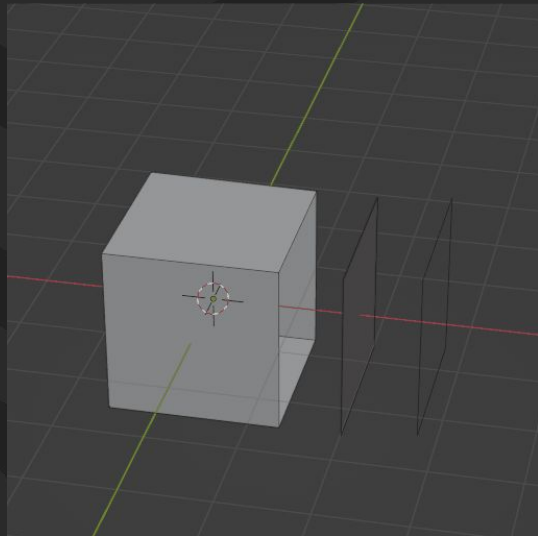

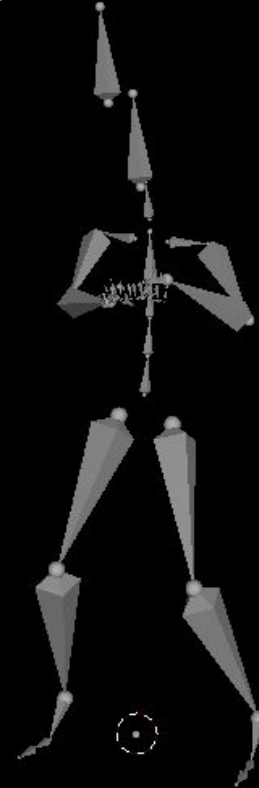

Fig. 1: *filling and merging*

Blender for 3D animation

Here's some keyframe animation playing on a armature:

And that's kinda all you
need...

How can I continue learning?

- First understand the basics
 - Do tutorials online of making your first game in unity
 - Next semester, join the club project and ask jake to give you a task
- Once you get the basics, get really good at one thing
 - Practice, practice, practice
 - Challenge yourself, keep it fun, watch content about it

Dawn of Dion Update!

- Progress is going well!
- Could use more people in all fields
- Some base mechanics are in
 - Gliding, dashing, ect.
- Base Levels are in the works
- Art is coming along
- UI is coming along
- Polish, polish, polish
